## Professional profile

Versatile specialist, who can perform both design leadership and hands on product design. Confident in ux/ui design, project management, design systems.

Helps projects big and small to boost their product development by applying Lean principles, analytical approach, constructing seamless user experience and professionally looking clean interfaces. Saves a lot of resources for companies by keeping product management and design in one pair of hands. Goal-oriented.

Strong communicator and team player. Likes to work with people, tries to create positive and effective working environment.
